This Report called INDRA (Version 1.6) creates a psychological mirror of your life, by interpreting the astronomical symbols present at your moment of birth using a large amount of prewritten text. INDRA describes your basic motivations, perceptions, inclinations, and character from a number of different perspectives giving a highly accurate composite view of your life. Your contradictory urges and drives as well as your chief focuses are described in INDRA. You will understand yourself better by studying this material. Your INDRA report provides guidelines for personal improvement and self discovery. Your life can improve quickly and dramatically if you apply the suggestions given here. By raising your aims and expectations you can obtain a deeper self-understanding and thereby resolve your inner conflicts and contradictions. INDRA is not meant as a substitute for astrological consultations, therapy, or the study of astrology; it is an interactive tool to enhance these things. Truly, INDRA provides a foundation for self-understanding. The INDRA Report is divided into Twelve sections or chapters, reflecting the Twelve basic areas of your life.

SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most Planets Above the Horizon

You have the majority of your planets above the horizon showing that you have a need for contact with the outer world in order to feel fulfilled each day. You enjoy projects, achieving and a sense of accomplishment. Success for its own sake is more important than what security it might present to you.

Most Planets Setting

You have the majority of your planets on the western half (or right-hand side) of your chart. Your natural tendency is to seek others' approval and to question the probable outcome of an action before putting your first efforts forward.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

Most Planets in the Third Quadrant

You have the majority of your planets in the third quadrant. You desire to relate and will seek out experiences that bring you in contact with people and increase your scope of information of others. This is your primary motivation in all activities. You want physical, emotional, or intellectual contact with others. This is your primary vehicle of personal development.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

Venus is your only fire planet. You have 10% of your chart in fire. You struggle to sustain your energy and enthusiasm for projects that you become involved in. Sometimes you motivate others to become involved in projects to which you are only partly committed. For this reason, you need to be very selective as to what projects you support. There is a recurring danger, if you get overly excited about a person or situation, you may not get closer than acquaintancy to any one or any thing. The correct focus on people and relationships advances your life.

Earth

You have an abundance of earth in your chart showing that you are a cautious and thorough person. You build material security in life. If, for any reason, this isn't happening you feel miserable. This can point to a problem of valuing the wrong things in life and chasing empty dreams. Ask yourself how much you really need and let it go at that. You can be an earnest and hard working person if over-acquisitiveness doesn't blind you.

Air

You have a large volume of air in your chart. You are a true people person. You like connecting people with people, people with ideas, and ideas with ideas. You are interested in everything and may find yourself studying many subjects at once and taking great interest and pleasure in things other people find irrelevant. You may end up being very trivial in your perspective on life even though your scope of vision is vast. Still, others find you gregarious and pleasant. Avoid procrastinating on projects

and chores. Gathering more data is no substitute for action. When your house, existing in this material plane, is on fire, don't collect more data, GET OUT.

Water

Neptune is your only water planet. You have 10% of your chart in water. Getting in touch with your feelings often requires you to latch on to a larger social expectation of you. This can mean that you don't have honest, direct appraisal of your feelings but live out others' expectations. Hence, developing a meaningful personal life can require some effort on your part. You see this as an area to be improved on and work hard to get in touch with your feelings.

2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

Fixed

You have 20% of your planets in the fixed mode. You don't have as much stick-to-itiveness as most people. Still, if circumstances require it, you can put forth great amounts of energy in a controlled way, treading water until new opportunities to act present themselves.

Mutable

You have an abundance of mutability in your chart. You are a thinker and attempt to accommodate a number of circumstances and people in your environment. You may have difficulty choosing a direction and staying with it. Truth has a way of becoming a highly personal subjective factor; consequently, others think of you as not being able to communicate simple truths in a factual way. You are nervous and may need more B-Vitamins in your diet, rest, and meditation in order to be balanced.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

You are enthusiastic and inspiring. You learn from every situation and from every relationship in life. Sitting still and dying are almost the same thing to you: an opportunity to catch up on your sleep. Your natural mode of being is perpetual motion. You like to study. This may mean school, travel, or that you just have to spend time in the great outdoors. All of these circumstances create knowledge and motion for you. Relationships are an opportunity for you to teach someone else what you have learned if not learn more yourself. You have a deeply rooted perception that you can grow in a joyful way. This belief that life doesn't have to be hard work makes you fun to be around. Many good things come to you easily in life because you expect them to happen. You need to be careful that your positive expectations don't become "short cuts" that have you starting over with nothing to show for your efforts. People often like you even when they can't understand you.

Diplomacy and charm help you deal with people. You wish closeness with those whom you can express your artistic inclinations. The ability to express beauty will aid you in any career but is particularly appropriate with the anything in the arts. Spontaneous creative urges emerge from you quite naturally. The expression of something aesthetic is embedded in your personality and must emerge. Your sense of taste colors everything that you do.

You are often frustrated. The roots of your anger, causing so much pain in your life, are conflicting desires. This conflict can certainly make for difficulties in both your professional and family life. Strive to make your inner conflicts explicit so that you can understand and come to terms with them. Find safe, physical releases for your pent-up energy.

A lighthearted, carefree attitude gives you extra support in dealing with others in life. People tend to bond with you over qualities in themselves that they feel good about. A memory of winning and having fun colors your perspective on life.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic

meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

LIBRA MIDHEAVEN

A certain evenhandedness goes into all decisions for you. You tend to relegate much of your responsibilities as you like to involve others in major projects and decisions in life. Your desire to do things correctly may lead to self-doubt and vacillation. Your aim is high. Your overview of life is quite comprehensive. Success always involves key relationships working out wholesomely.

Sun Semi-Sextile the Midheaven

You have a long climb to the top of your professional life and there is an important learning that goes along the way. You keep working at the whole picture of how to meaningfully include others in your upward journey in life. Self expression and the acceptance of responsibility go hand in hand.

Moon Trine Midheaven

You are good with people. You know instinctively what will please others and what will be problematic. After you have become comfortable with yourself and your own ways, you are at home in the general public.

Mercury Conjunct Midheaven and in the 9th House an unafflicted.

Your natural implication to apply your curiosity and communication skills will lead you into study and travel. Your openness to experience and your use of language brings you success in career. You have the advantage of being able to see the big picture in life.

Saturn Quincunx the Midheaven

The pressures of life can weigh on you, especially in youth. Learning to handle your obligations in a timely and limiting manner is very important part of coming to understand what your life is really about. You have a well developed social conscience that is not always attuned to your desires. Frustrating compromises are necessary until you start fashioning your desires into a mold of social responsibility and awareness. From this point on there is no conflict between your culture, social vision and your personal destiny. You take pleasure in fulfilling your own goals as they are in step with your social picture.

Pluto Square Midheaven

You can end up in meaningless stalemates with bosses and authority figures. Your cycle of achievement comes to a halt every so often as you struggle to make your will live within the limits of your life. You often compensate for your deep fears by your strength. Your will or inner strength is linked to your ability to endure or suffer. Relearning expression of the will requires some emotional unraveling. This may be a slow process of analysis or self-discovery.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

You have an extremely rare type of chart. You have no conjunctions. This shows that you have no overwhelming central focus in your life. You love many different types of things and your curiosity is very broad. You get your equilibrium staying in motion. You find the new and unusual to be powerful, motivating forces. Once you get the picture of how to regulate your energy and attention so that you don't become spread too thin, your life is an exciting and stimulating delight, but this regulation must be learned so that you don't live your life with a series of half done or barely started projects littering your past and your environment.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN VIRGO

You want the world to be perfect. You expect perfection from yourself. You are good at analyzing and rendering conscientious and systematic service in an honest and impartial way. You are so critical and seemingly unemotional that others may dislike

you or at least feel you are very boring. You do lack imagination and tend to be somewhat of a "grind", but when it really matters you are there and can be relied upon. You are an exacting and responsible craftsman. When you become truly tolerant and less self-critical, your vision of life expands. Then, you enjoy life rather than just exist and produce in it.

Sun in 9th house

Your vision is lofty. You concentrate on the "big picture" and the far away seems more interesting than the close and familiar. You can be a good risk taker. Your energy and idealism can be quite an inspiration to those around you. When you are in your "people person" mode of operation your interests gravitate toward the outdoors, sports and competitive activities.

Sun in 9th house Unafflicted

You have a good sense for rapid advancement. You are a builder and know how to take advantage of opportunity. You are able to find ways of overcoming the limits of your environment and consequently will have some long distance communication and travel as part of your experience enhancement picture.

SUN IS IN HARD ASPECT TO YOUR MOON

You have a tendency to get in your own way. You have material and emotional needs that cut against the grain of what you try to accomplish for ego satisfaction. You have some real success in life but it can be short-lived or fluctuating until the time that you have eked out some reasonable compromise between your inner drives and your mechanisms and techniques for accomplishing your goals. When you have difficulty mastering sufficient physical vitality or enthusiasm for a goal you have chosen, it is time to get to the roots of the inner conflict that is stealing your energy.

SUN SQUARE YOUR MOON

Your energy and vitality fluctuate. You are driven to accomplish but forward progress is frustrated until your inner self-dissatisfaction is resolved. Getting a clear picture of your direction in life requires you to make some-short term sacrifices in order to make long-term gains.

SUN IS IN SOFT ASPECT TO YOUR SATURN

You are self-disciplined and self-aware. You are ambitious and are willing to work hard to put your vision into action. Your naturally conservative instincts lead on a safe and sure path although it may well be a slow one. Being basically of sound judgment and reliable, people tend to trust you; these qualities alone may put you in a position of leadership at some point.

SUN TRINE YOUR SATURN

Your upbringing, family, and personal history lead you to expect the good in life. Your lofty expectations underlie the "lucky breaks" that come to you. Your

personality has a cautious, serious, and disciplined ingredient that supports your vision of life which is practical and specific but also limited. Your productivity is linked to your instinct for finding the "law of gravity" operating through the center of any project.

SUN IS IN HARD ASPECT TO YOUR URANUS

You have a strong will, an abrupt manner, and a highly original form of self-expression. You need to be careful that your basically iconoclastic nature doesn't end up separating you artificially from others. Your need for freedom, independence, and uniqueness plays havoc with your life in youth but becomes more a force for progressive change as you get older. You love the dramatic and are a true romantic. You have a major lesson in life: to gain freedom through responsibility rather than freedom from responsibility. Once learned, relationships and projects become much more stable.

SUN SESQUADRATE YOUR URANUS

You have a strong drive to do everything your own way. This makes getting along with others quite difficult. You have freedom as a concept but must strive to see it as a reality for others, not just yourself. The creative side of your nature is powerful but unstable.

SUN IS IN HARD ASPECT TO YOUR NEPTUNE

You have a deeply secretive side to your nature. You are romantic, humanitarian and idealistic. You suffer from an excess of emotion and exaggerated sensitivity to anything that goes wrong in life. Unfortunately, something going wrong can mean merely that it didn't live up to your expectations which can be quite inflated. Your life becomes a dynamic, unstoppable force for good once you accomplish two things: one, you must become self disciplined (i.e. ascetic) enough that you overcome self-indulgence in every form, and two, you must know life by knowing, really knowing, yourself.

SUN SEMI-SQUARE YOUR NEPTUNE

Your idealism can lead to deception and self-deception. Further, you are vulnerable to being led to the wrong conclusions by other people's suggestions. It takes a good amount of mental discipline to make sure that your ideals and suspicions don't overrun your common sense.

SUN IS IN SOFT ASPECT TO YOUR PLUTO

You are penetrating in your insight and informative in your suggestions to others. You ask a good deal of yourself and are driven unconsciously toward important issues. You have an instinctive and natural grasp of fundamentals. You approach anything new with a blend of distrust and curiosity, but when you commit to some project you are one hundred percent behind it and execute your part with daring and self-confidence. You make a true friend and a great ally. Your vitality is very strong.

SUN SEXTILE YOUR PLUTO

When you are emotionally connected to a project, your compulsive nature can carry you through to completion in a way that increases awareness. Great insight and stamina powers your ego to great personal achievement.

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

MOON IN GEMINI

You have a "way with words". You have the ability to imitate and communicate almost anything that you have exposure to. You seek out the new and you are always alert to anything that might further your cause. You have keen powers of observation. You may lack warmth and although you genuinely like people and seek them out, often your overactive nervous system stops you from relaxing into real intimacy. Avoid letting words substitute for feelings and try to develop depth and commitment. Meditation, exercise and visualization all help you establish more continuity of experience in life.

Moon in 6th house

You have an unconscious need to find the origin of what isn't working. You are capable of working in routine and menial jobs as part of your larger career picture or as part of a social process that allows you to transcend a sense of personal responsibility.

Moon in 6th house Unafflicted

By the time you reach adulthood you have figured out what works and what doesn't work at the level of your daily routines and habits. You find satisfaction through helping others and have a natural instinct for knowing where and when to give assistance. Good practical training has built a powerful gridwork of social graces and charms into the floor of your unconscious.

MOON IN ASPECT TO THE SUN

Your Moon in aspect to your Sun is a central feature of your life. This aspect is the primary indicator of your basic energy. We talked about this aspect in the Section II. The Sun - Your Ego Structure.

You are intelligent with a good grasp of meanings and a good memory. You adjust easily to changing circumstances, draw quick generalizations and can communicate your findings to the public. You learn new things easily. You are able to expand and build on what you learn because you have a good imagination.

MOON TRINE YOUR MERCURY

Quick-witted and multifaceted, your mind and hands move from one thing to another with great dexterity. Your mind moves swiftly to the point and you can easily turn the right phrase to cast the current situation in the right light. You excel in any field where intelligence and communication skills are helpful. Your instincts are usually correct and in step with public sentiment.

MOON IS IN HARD ASPECT TO YOUR JUPITER

You may suffer from pretending to be something that you are not. Avoid overstatement and exaggeration. Arrogance can stop you from correcting yourself when you are in an untenable position. Don't take yourself or life too seriously and you will find a lighthearted sense of humor that will ease your difficulties. See self-indulgence as an enemy to be avoided and luck will find you.

MOON SESQUQUADRATE YOUR JUPITER

You feel opportunity coming from a long ways off. You are a natural at timing your luck, but you can end up with position, power, and material things only to discover you've left friends and family years behind and in another country. Make sure you evaluate personal sacrifices before you take advantage of new opportunities.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN LIBRA

Your mind is on a quest for perfection, harmony and beauty. You are rational and fond of comparison. You look for justice. You want the right answer, the right inflection and the right emphasis. When you speak, others will see you are incredibly polished and persuasive. Be careful you don't end up as some oily, back-bending huckster bent on selling through flattery. Have a position of your own and assert it up front, as diplomatically as possible. When circumstances aren't to your liking, you make premeditated adjustments for the effect. They can be superficial or even insincere. You are easily led astray because your mind is open to all points of view. Translate this into a higher intuition; then, your open, balanced fair-mindedness wins you respect from others and many good friends.

Mercury in 9th house

You have an interest in travel that comes from a desire to expand your understanding of life. Adventure and change are always ingredients of your life. You are forever searching out new avenues of understanding, as you have a persistent drive to find the truth. You are most successful in life when you learn to harness your enthusiasm for expansion with consistent effort.

Mercury in 9th house Unafflicted

You are an inspiration to others. You are good at finding the "quick fix" because your mind looks at the big picture and sees many options. You are blessed with a genuine thirst for knowledge. You are not just interested in the content of information, but also in its effect on people.

MERCURY IN ASPECT TO THE MOON

This indicates that you have a very personal, feeling mind. You have a very close personal use for your mental life. The details of this connection were discussed in Section III. The Moon - Your personal life.

MERCURY IS IN HARD ASPECT TO YOUR PLUTO

You are bright and insightful but the very strength and depth of your vision can mislead you. In consequence, you get in your own way a lot. The magnitude of a project can intimidate you so that you don't even embark on it. You are a perfectionist and compulsive. You fear being judged by others as inadequate and this quality has you afraid to act. Of course, you do overcome this many times in your day to day life, but it goes smoother for you when you stop attributing negative motives to those around you. You are able to do this when you feel better about yourself. Periods of meditation and contemplation are necessary to get to know yourself.

MERCURY SQUARE YOUR PLUTO

You have a deep side to your thinking and you wish to know the hidden side of anything that you get interested in. Hard study is difficult for you because you see

how much is entailed to do a job perfectly. Consequently, it is tough to get motivated. You tend to be mentally all or nothing.

SECTION V. VENUS - Your Love Nature.

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

VENUS IN LEO

You are an openhearted lover. You are creative and demonstrative. You are a lover of pleasure and luxury and want people to think well of you. You have a flair for the dramatic. You inspire others to act because they sense the genuine wholehearted approach in you, which is lurking behind your continuous pose. You seek inner harmony through some dramatic or creative self-expression. When you warm up to someone, the relationship becomes an outlet for the artist in you. You are very generous and need to be more discriminating as to where to give and when. A noblesse oblige attitude and outlook colors the way you pour out love, affection, and material help onto others.

Venus in 8th house

You like to explore feelings at their deepest level. You may have a tendency to express yourself in ways that are misunderstood by others. For all this, your financial picture tends to brighten at every major turning point in life.

Venus in 8th house Unafflicted

You have good luck with getting to core issues in your involvement with others. You are blessed with positive instincts in practical matters. You learn how to extract maximum pleasure from objects and people in your environment. Repetition of past patterns brings success through intensity. This principle brings you a "roll over" of physical pleasure or pain depending on your mental focus. This principle can also be used positively to contribute to your financial success.

VENUS IS IN SOFT ASPECT TO YOUR JUPITER

You believe in yourself and in people. Your life tends to improve as you go along. You have a habit of knowing how to get one positive side of life pulling together with another positive quality. You acquire money and position as if it was natural to you. You are good at blending people and attributes of people together to get the most for the effort. Luck in life is a direct result of your optimism. Your life betters materially through marriage.

VENUS SEXTILE YOUR JUPITER

Your refined sense of tastes and your skill at convincing others of your point of view contributes to a charmed life. You get where you are going faster when you ask for what you really want. You have a good sense of the beautiful and you know value when you see it. Your sense of rhythm, beauty, time and spacial relationships give you some high caliber finesse. This gives you extra success and fringe benefits in every line of work and all your personal relationships.

VENUS IS IN HARD ASPECT TO YOUR SATURN

You have some real difficulties in love relationships and with the material world. On the surface, you are a gentle soul just trying to keep what is yours and trying to stop the world from taking advantage of you. Underneath this veneer you are driven by fear and greed and your life is poorer for it. Your instincts are conservative and you are frugal with money but this isn't sufficient to offset poor judgement with people and things. Reappraise your way of being in the world. If your hand is closed no one can take something from you, neither can you receive what others wish to give you.

VENUS SQUARE YOUR SATURN

Fear of rejection confuses and limits your life. You know only too well that you want things, people, and relationships that you can't have until you relax and take some risks. The down side of any gamble can scare you so much that you are miserly with your money and your affections. When you finally do reach out (and you always do) you tend to do it poorly. Overcome fear. Practice self acceptance without a lot of negative comparisons and judgements.

VENUS IS IN HARD ASPECT TO YOUR PLUTO

You are a great manipulator and are often caught up trying to make things appear a certain way. You are the one who suffers from this tendency the most. You tend to get tied down to a pattern of endless repetition in relationships. You have difficulty in letting go even when a situation is painful. You are always dealing with people as symbols of others who are not even present. Love and power become confused with one another. You have a deeply lodged need to establish your sense of self worth. Once this is secure you can overcome your fear of being dissolved in a relationship built on equality and will start having more normal interactions. You need to be less concerned with how you appear to others and more concerned with how you are.

VENUS SEMI-SQUARE YOUR PLUTO

You have difficulty putting the deepest intuitions of your heart into practice. Your expression of intentions and affections are usually held back artificially because your feelings are so strong you are concerned that they will have a negative impact on circumstances and relationships. Compromise and crossover measures help you convey your true taste and feelings to others without invoking their censure.

SECTION IV. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign

placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

MARS IN VIRGO

Your desire for technical perfection can mean that you end up suppressing your wants. You do have skills but often lack the drive to do much with them. You need to build self-confidence. You work well in any area that allows you to serve others or that lets you create order. When it comes to careful, detailed work, you are either a pro or you get completely entangled in the minutiae and the situation decays around you. You take comfort in carefully defined details in any situation. Consequently, any time you feel threatened you retreat into details that make you feel safe. The trade-off? Certainty costs you vision; you lose sight of the larger picture. You learn to see "the forest for the trees" when you become more courageous.

Mars in 9th house

Your energetic mind and fiercely competitive nature can be a powerful symbol of the free spirit. You have a love of change and personal initiative. You have good promotional instincts.

Mars in 9th house Unafflicted

You have good interactions with foreigners and may be very inspired to spend time in foreign countries. You seem to benefit from participation in outdoor sports.

MARS IS IN SOFT ASPECT TO YOUR SATURN

You know how to get to your goals in life by steady, patient, and persistent progress. You have good, practical overviews of the final result of your efforts. You are good at planning a strategy and sticking to it. You build your projects and your life with bedrock security in mind, with as little risk as possible. Discipline, patience, hard work, and the blessing of good judgement work together to form a picture that looks like "luck" to others.

MARS TRINE YOUR SATURN

You are an excellent judge of your limits and create much goodness for yourself by appreciation for what is appropriate socially and for what is permanent in life. You express yourself in a way that helps your long term projects manifest.

SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect

patterns to Jupiter show the direct network of good and administrative power in your life.

JUPITER IN LIBRA

You value everything and have great ability to see usefulness in everything and everyone. You are genial, social and a great host because you are "in tune" with what goes on in others. You value people. You are just, balanced and look for sincerity and idealism as part of the higher vision of truth. You look for opportunities with others and feel that you naturally belong in partnership. You feel that you have something to teach others about relating as an equal. You are kind and sympathetic to others and feel that their concerns are interesting and worthy of your attention. Your sense of justice and appropriate balance gives you a natural talent in art, mechanics, architecture, law, politics, teaching, mathematics, drama and hundreds of other fields involving proportion and symmetry. You are a master at being able to infer the whole from seeing a small portion of an object, idea, ideal, or picture. You see opportunity everywhere because you see potential everywhere based on your ability to extrapolate and infer. Your higher vision of truth is constantly relating ideas to ideas, people to people, and people to ideas. This imaginative quality of yours is the source of great talent, great luck, and great vision. When you learn to focus this talent toward a specific goal, this life becomes very productive. Without focus you still have charm and graciousness that helps you make your way in life.

Jupiter in 10th house

You are often helped in your climb in life, by people higher up in the company or system you are involved with. You naturally tend to excel in any career. You believe in your ability and administrative skills and this faith in yourself alone is responsible for securing some position of authority.

Jupiter in 10th house Unafflicted

You like the challenges of life and find the climbing exhilarating. Others respond to your good ideas and your enthusiasm. You are always looking for ways to expand your sphere of influence. Your search is often rewarded.

JUPITER IN ASPECT TO THE MOON

You have an aspect from Jupiter to the Moon showing an interest in expressing values through your daily life. What you believe has more impact on what you do than it does for most other people. The information on this topic in Section III. (The Moon - Your Personal Life) may be helpful in grasping how you do this.

JUPITER IN ASPECT TO VENUS

You have an aspect of Jupiter to Venus. This indicates that you expect the positive to happen. Your life values easily adjust to your taste, love nature and your sense for the beautiful. This creates some feeling of abundance for you. Your values are in tune with your affection. You may find the information in Section V. (Venus - Your Love Nature) useful in understanding this process.

JUPITER IS IN HARD ASPECT TO YOUR URANUS

Avoid your gambling impulses. The "long shot" and the impractical choices call you. Don't answer and you will be richer for it. You need to be grounded because your imagination is so far beyond the happenings of our common reality that you are likely to start selling real estate franchises on Mars before anyone has ever landed there. Make sure your ideas are practical before you start putting effort into them. New ideas you will always have; your difficulties come from putting energy into them. You don't see the necessity to work for a new idea in a realistic way because you have a belief that worthwhile ideas promote themselves. Consequently, you can end up "an armchair revolutionary". Make it a practice to sift through your ideas and actively support the most important.

JUPITER SQUARE YOUR URANUS

You have great difficulty feeling comfortable. Some inner dynamic in your psyche is always searching for freedom and this component gives you the message that you should change, move, or strive harder. You may change from a productive course of action to a nonproductive one because you are desirous of change, or you may "kill the goose that lays the golden egg" many times before you learn to leave well enough alone.

JUPITER IS IN HARD ASPECT TO YOUR NEPTUNE

You feel lucky and that gets you into trouble. You get overextended and into financial hot water before you know what has happened. Being gullible and naive, you suffer through believing in your own fantasies. Because you are kind and sympathetic, you go out of your way to help others. But here you can suffer through poor judgement as to what will be of real and lasting help. The way out of this confusion is not to be less idealistic or less sympathetic, but instead to be more long-term in your vision. Ask yourself what will be important 10 years from now in your immediate considerations. Taking the long view of yourself and of life is an acid test for moment to moment decisions.

JUPITER SQUARE YOUR NEPTUNE

Your values and beliefs are in conflict with your vision of truth. You get confused as to what your direction should be. Your biggest problem can be having unrealistic expectations. You may be lazy and think that the good things you dream about will just come to you with no effort. Your faith in life, as misdirected as it is at times, will certainly sustain you, and it certainly does aid you in attracting the good things that the world and other people have to offer.

SECTION VIII. SATURN - Your Obligations.

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an

area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

SATURN IN TAURUS

You fear not having money or being dependent on anyone else. You are solid, practical, trustworthy and thrifty. You defend yourself against the outside world by racking up material success. You are security-oriented. You can become too stubborn and cut off from others. When life becomes too premeditated you need to break the tyranny of thinking that you are your possessions. Have more fun!

Saturn in 5th house

You work harder than most people to get the creative side of your personality out. You don't get enough socializing in, and when you do have fun, you take that seriously, too. Learn to relax.

Saturn in 5th house Unafflicted

Success comes to you by following well established procedures, and working with things that are tangible. Pleasure, recreation, and creative projects are serious business for you. You have more difficulty truly relaxing than most people. You feel that your social life and romantic encounters should serve some practical end. You don't rest easily unless you have your responsibilities taken care of. Your sense of duty is admirable but you need to be responsible to yourself as well.

SATURN IN ASPECT THE SUN

You have Saturn in aspect to the Sun showing that you identify deeply with your obligations in life. This aspect of your nature is explored more deeply in Section II. The Sun - Your Ego Structure.

SATURN IN ASPECT TO VENUS

You have Saturn in aspect to Venus which shows that you take your love nature seriously and that you have a strong sense of duty. This is taken up in Section V. Venus - Your Love Nature.

SATURN IN ASPECT TO MARS

You have Saturn in aspect to Mars showing a desire to build strong foundations in your life. This aspect of your nature is taken up in Section VI. Mars - Your Energy.

SECTION IX. URANUS - Your Search For Freedom.

The planet Uranus is beyond the orbit of Saturn and can't be seen without the aid of a telescope. It represents the sky in us, that which transcends the limits of finite life. Uranus raises the vibration of everything it contacts. The sign placement of Uranus shows your broadest striving for freedom. The house placement of Uranus indicates

your area of direct unique expression. The aspects to Uranus indicate the way you express your need for higher consciousness.

URANUS IN CAPRICORN

You express your creativity and will through self-discipline and ambition. You have leadership potential which comes from your organizing and legislative skills. You know how to get the most done with the least effort or energy.

Uranus in 2nd house

Your income fluctuates and you are apt to hit extremes a few times during your life. You will have at least two separate sources of income. Money and assets represent freedom to you.

Uranus in 2nd house Afflicted

You make decisions with your resources that go against your own best interest. You do this because you wish to express your uniqueness through what you have or how you relate to the material side of life. This causes loss when you transgress the universal laws of any material world situation. Avoid stubborn assertions that favor the unusual. The way to success is through balance and obeying the rules that apply to everyone.

URANUS IN ASPECT TO THE SUN

You have Uranus in aspect to the Sun showing that you are a freedom lover at heart and this forms a central feature of your personality. This aspect of your nature is explained in Section II. The Sun - Your Ego Structure.

URANUS IN ASPECT TO JUPITER

You have Uranus in aspect to Jupiter showing that you have a big vision of what life can be at its best. How this works out for you is discussed in Section VII. Jupiter - Your Values.

URANUS IS IN HARD ASPECT TO YOUR NEPTUNE

Your idealism is lopsided and tends to be at odds with the society you live in and the direction of your culture. This doesn't make your ideals wrong, just impractical. You are prone to nervous fits and disturbed periods where it is difficult to accomplish much and difficult to relax. Somehow you seem to express your society's dissatisfaction with itself. Your life betters through the study of meditation, biofeedback, yoga, and/or grounding or centering activities.

URANUS OPPOSITION YOUR NEPTUNE

Your world seems to be "turned on its head" every so often. Your values are always challenged by your personal drive for freedom. You need to avoid any feelings that

your life is completely out of your hands. Life is best for you when you make meaningful compromises with what you envision as given circumstances of your life.

SECTION X. NEPTUNE - Your Spiritual Aspirations and Ideals.

The planet Neptune has an almost perfectly circular orbit. It represents the part of our nature that strives for perfection, that looks to some higher ideal. The planet Neptune rules the ocean and the part of us that is beyond the limits of the shores of personal existence. The culture moves with the cycles of Neptune and it is the primary indicator of your connection to the culture that you live in. The sign of Neptune shows an ideal that you desire to manifest. The house placement of Neptune shows the area of your life that you want to express this ideal in. The aspect patterns of Neptune indicate the most direct connections yet most subtle networking of your personality into the world at large.

NEPTUNE IN CANCER

Spiritual growth and society's betterment are very closely allied for you. You act instinctively to bring about better feelings between people. Your feelings can be so sensitive that you retreat from interactions all together.

Neptune in 8th house

You have some interest in large-scale social institutions, insurance and government agencies. You are very sensitive and if you are able to use this quality in a positive way you will get involved in digging down to the foundations of culture. This may express itself as an interest in some aspect of the past.

Neptune in 8th house Afflicted

You may suffer by counting on money that keeps eluding you. As you get older and adjust for fluctuating circumstances in financial matters, you become less vulnerable to your own shifting moods or others' intentional deception. Your psychic skills might cause you difficulty in the area of the occult - be conscious of your motives.

NEPTUNE IN ASPECT TO THE SUN

You have an aspect of Neptune to the Sun showing that you have a gentleness and lofty vision of life. How this works out is shown by Section II. The Sun - Your Ego Structure.

NEPTUNE IN ASPECT TO JUPITER

You have an aspect of Neptune to Jupiter. This indicates that you have a lofty vision of the possible in life and that you attract good things by this expectation. How this works out for you is shown by Section VII. Jupiter - Your Obligations.

NEPTUNE IN ASPECT TO URANUS

You have Neptune in aspect to Uranus showing that one part of your nature will have a propensity to act out the unexpected. How this manifests is indicated in Section IX. Uranus - Your Search for Freedom.

SECTION XI. PLUTO - Your Need For Fundamental Change.

The planet Pluto represents the dark underground part of you. It shows your ability to transform the most fundamental properties in your own inner nature. The sign of Pluto is the way the obsessive, compulsive and committed part of your nature expresses itself. The house placement of Pluto shows the area of life where you make your most fundamental and most potent changes. The aspects to Pluto show the deepest most unconscious links in your personality structure.

PLUTO IN GEMINI

You are inventive and intelligent at your best. You will try on a hundred hats looking for the right one. At worst, you avoid being tied down at all cost.

Pluto in 7th house

You have very high standards and unusual taste in people, partnerships and relationships. You want deep changes and self-transformation through relationships. For all this, you are often embarrassed by what others do in relation to you. You sometimes get locked into relationships that are uncomfortable and don't see a way out. At times you feel locked out of a relationship that you want. You have a taste for the extremes.

Pluto in 7th house Unafflicted

You will have a few extremely unusual relationships. These special relationships will be a cauldron, allowing you a mirror through which you can isolate and rectify qualities of your personality that you don't care for anymore.

PLUTO IN ASPECT TO THE SUN

You have an aspect from Pluto to your Sun showing that much of your ego stays submerged and that you have a deep wellspring of inner forces to call upon. This is described in Section II. The Sun - Your Ego Structure.

PLUTO IN ASPECT TO MERCURY

You have an aspect of Pluto to Mercury. This indicates that you have a profound mental life. This is detailed out in Section IV. Mercury - Your Mental Life.

PLUTO IN ASPECT TO VENUS

You have an aspect of Pluto to Venus showing that you have a very deeply entrenched love nature that you are transforming. The details of this are discussed in Section V. Venus - Your Love Nature.

SECTION XII. SUMMATION.

Rem SECTION XII. SUMMATION

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

MAJOR ASPECT IN THE CHART IS A SQUARE.

You have lots of energy and you need it. Your life changes through the resolving of conflicts. You are a fighter and you get clarity by drawing lines between the perceived good and bad of the moment. Your inclination is to be action oriented first, and reason things out after the battle. Your hunches are based on the odds. You take an empirical approach to problem solving. Your keyword is Energy.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Well-Aspected Mars.

Your energy and enthusiasm naturally go into productive channels. You are attracted to experiences that give you the opportunity to act. You can usually get what you want when you are prepared to put forth the effort.

Neptune in Cancer.

You have the ability to build an aggregate of positive virtues based on your past experiences and your warmest and deepest ideals. Your sensitivity to others is very helpful in your life and theirs.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Afflicted Uranus

You have a habit of expressing your uniqueness at the wrong moments and in the wrong way. Unhappiness and a feeling of isolation are the end products of your actions that you were hoping would lead to freedom. True freedom comes through responsibilities, not by escaping them. Develop creative outlets for your energy that will not run counter to your basic good will to others and your true responsibilities follow you naturally.

Afflicted Neptune

You seem at odds with the culture you are in. You are idealistic but your ideals are unsympathetic to the social direction of the moment. You can be a visionary and a real helper to the world but you must harness your values in a positive and realistic way in order to be of use to the world or even to enjoy your personal life. Your prospects in life improve when you are able to direct your ideals and values inwardly toward your own life in a joyful and practical way. You will affect the world positively when you effectively change your own life.

Mercury in the Ninth House

Bend your perceptions toward the big picture without leaving the day-to-day details undone. You can be visionary if you avoid the grandiose.

Venus in the Eighth House

You find beauty in the bowels of life rather than on the surface. This gives your personality great depth of character but it also leaves you vulnerable to missing the joy others experience in simple pleasures. Expand your outlook and commonize your experience. Then, your depth will have meaning.

Jupiter in the Tenth House

You have difficulty separating the essence of your values from how they appear to others. What you really stand for is more important than whether or not it is accepted by others. When you learn to be completely honest with yourself and others, you have a great skill for facilitating the completion of any project or group work you become involved with.

Saturn in the Fifth House

You hold yourself back and have a habit of expressing the weaker side of your personality first. Have courage in your self expression and you will be able to help others and build a bigger picture of yourself by doing so.

The need to express your uniqueness through the power of accumulation stops you from having consistent progress in either the material world or in your more universal cultural pursuits. The way out of frustration is to set up a rhythm in life of switching focus naturally and gracefully every-so-often.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Mars in Growth Aspect to Jupiter

Energy is put out in ways that lead you away from your goals. Getting the two correctly aligned means facing that your desires express themselves in a way that doesn't directly support your goals. Overconfidence can lead you on many energy expending adventures that run you in intertwining circles and bring you back to go. Development and growth occur when you get honest as to your intentions.

Mars Semi-sextile Jupiter

Sometimes you achieve your goals without recognizing the way you "short change" yourself by aiming at destinations that require very little stretching. Your values can supply you with energy and enthusiasm, but, when they don't, sit down and reevaluate what you really believe about yourself and about life. Growth occurs as your beliefs about the nature of things directly impacts the way you express your emotions. Great enthusiasm for little steps forward seems to be the surest way to improve.

E. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Taurus

Practical concerns and involvement with material progress better your self-esteem which in turn better your life. Concentrate on simple basic principles and patiently accumulate security. Your foundations in life tend to be ignored as your energy is absorbed in overly personal projects. Let the passions of your heart and mind give

way to a more matter of fact, simple, detached, and stable pattern of action; be less reactive, more patient and self satisfied.

North Node of the Moon in Taurus and in the Fifth House

Get paid for the things you create and be willing to go it alone, even when you are encouraged by many others to make long term group investments. Success is sometimes small but should be immediate. It is important that when you do things with groups that you release any feeling of needing everyone to do things your way. When you create on your own you get quick "feedback" which lets you see how you are doing. Being involved with others means relinquishing control.

TABLE OF DEFINITIONS
