***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return; from it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year; opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions; a planet may be beneficial in a certain area, while others may indicate the opposite. This means that you could have two

types of situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

Chapter 1:

General characteristics of the year. The external conditions.

Solar Return Ascendant Libra :

Your social life will flourish this year. Your attitude will be more open and agreeable, bringing new people into your life and also strengthening old friendships. You will prefer to be with others rather than alone. You will meet people who will play an important part in your future. There is a possibility to begin a significant professional or commercial relationship that could lead to a deep romantic tie later on. If you are single, you may establish a relationship that could turn into marriage in the future. If you already have a relationship, you will share many activities with your partner and will develop many side-by-side projects. If you have plans for marriage, now would be a good time to tie the knot. If you already are married, you will enjoy a year of matrimonial happiness. In any case, this year should bring you the affection you yearn for.

Your artistic inspirations and a need for harmony in your environment will be emphasized. Most of the time you will be diplomatic, soft and agreeable. If by nature you have a strong and aggressive temperament, you will calm down during this period. But if you are a more passive person, you will have to fight against passivity and also the tendency to ease and comfort. A propensity toward this exists in either case together with a tendency to avoid making major decisions.

You could be plagued by doubt and more than once will be confronted with the difficult task of choosing between two or more options. The reason for your doubt probably will be caused by paying too much attention to the suggestions of people around you. Your search for balance and justice won't allow you to take decisions you have to make lightly.

This influence also brings issues related to documents, justice and paper work in general. In case you have some legal or bureaucratic problems, you will find a swift solution. A litigation of a judgement or demand initiated now could probably be solved with comparative ease.

Others will comment that you are more beautiful and attractive. This stems from your desire to improve your personal look. You may wish to change your hair style and buy a new wardrobe. There is a tendency to refine your personality and to take better care of your physical body.

In respect to your health, Libra rules the kidneys and it would be wise to drink a lot of fluids to eliminate the toxins in the system. This influence inclines to become lazy as far as physical exercise is concerned, which could lead to circulation problems. Besides that, you may develop a sweet tooth during this time.

In spite of your desire for balance and peacefulness, you will be inclined to meet impulsive and authoritative people now, who will force you to fight. It could be someone in your family or an associate, if you have one, who will become very dominant and demanding, creating conflicts and fights. People of Aries will have a notable influence on you this year, but don't allow them to dominate you!

Solar Return MC Cancer:

Your professional activity will be strongly connected with the public. You will turn very sensitive and will be concerned about your social position. You will be more aware of your behavior and will concentrate on blending in with the crowd. You could establish very important personal contacts without even looking for them. Your activity will attract the public's attention and you could receive some favor from others. Your tranquillity could be disrupted, however, since you want to get along well with everybody and won't always be able to achieve it.

Activities that have to do with teaching and caring for patients will be very favorable this year. If you are already connected with medicine, chemistry, pharmacy, politics or teaching, it will be to your benefit during this period. You also can expect some fluctuations in your income.

Your sensitivity and the desire to get in touch with your inner feelings will increase. Listen to them and understand what they are saying to you. Have confidence in your intuition!

Your mother or other women could have a strong influence on you now. You could feel certain family pressure that at times may encourage you, but other times could be a burden to you.

This influence inclines you to put your own house in order. Stability and tranquillity will reign during this year. If you have some problems, they will be solved now thanks to a mature and serious attitude on your part and on the part of the rest of your family. Exercising your own authority is the key to achieve the order you long for. If you live alone, you could feel uncomfortable with your solitude and will look for a companion.

Chapter 2: Astrological influence of your personality.

Sun in 11th house:

This solar influence increases your social life and your circle of friends who will have a powerful influence on you. Existing friendships also will be strengthened and these will be of great support to you during this year.

You will feel a desire to join groups and participate in collective activities with people who have the same interests. There is a tendency to depend on friends for the realization of your plans. On one hand, you would find the necessary support, but on the other hand, the risk of the opposite also exists. If the indications described in the following paragraphs are beneficial, you will be surrounded by positive people, but in

the opposite case, you could experience deceptions and frustrations or loss of time participating in groups that never accomplish anything.

You will develop new goals and objectives during this year and also could turn more idealistic. Your humane sense will increase together with more understanding of people around you. During the first half of the year your activities probably will be more mental, while during the second half you will determine and activate many of your goals.

A special friend's offer of support and dedication may be instrumental in the achievement of your goals.

Sun square Pluto:

You will be confronted with people or powerful situations that will put to test all of your strength. Some of these situations will be inner conflicts and you will have to fight your own habits or negative memories that are deeply ingrained inside you. This is a year of transformation and profound changes in your personality. Don't lose your balance and don't react aggressively or with violence to situations of tension. If you undertake some type of therapy or consultation with a professional, you will manage these energies more positively.

The principal conflicts are brought on by people who exercise authority over you. You will fight for power in order to determine who dominates who. You could be confronted with someone tyrannical or it may be you who will turn dominant and inflexible with others. This could cause ruptures in relationships and total changes in your social circle. Paradoxically, this influence also could bring ruptures or flaws in machines or elements of your ownership, and could be the cause of fights over the repairs.

On the more negative side, this astrological aspect could bring situations of physical or accidental violence. Control your speed and don't expose yourself to people or to places that represent danger to your physical body.

Sun trine Jupiter:

This will be a very favorable and happy year. You will feel a current of positive energy that will help you to resolve each one of your problems with a touch of luck. As a matter of fact, this luck will be generated by your great enthusiasm, optimism and kindness. You will be very willing to work and eager for action in general, and continually show a smile. Your life enters a period of general expansion and growth that is portrayed particularly in the house that is occupied by the Sun this year (described in the previous paragraph) and in that occupied by Jupiter (described later on). Your social life will increase and bring you in contact with more influential and powerful people.

If you have a litigation or legal process, it will be solved very favorably for you. Your sense of justice will increase together with the desire to acquire more knowledge. You will want new experiences and will begin to plan journeys that probably will be carried out during all of this year.

This will be a year to harvest all that was cultivated in previous years.

Sun semisquare Venus:

You may encounter some romantic problems from the past that haven't been resolved yet. Moderate your impulses and develop a positive attitude toward your partner as well as your social life in general. The irritations and displeasures that others produce could be the reflection of your inner uneasiness. This aspect generates a tendency toward comfort and life of pleasures, occasioning disruptions of your routine or loss of money. Try to control yourself and search for a creative solution for your inner dissatisfaction.

Sun quincunx Saturn:

Your level of energy could vary during this year and you could have moments of depression or general fatigue. You probably will have the desire to isolate yourself from your other half and will feel the effect of obstacles that appear. You should maintain a positive attitude and face this type of events perseveringly, otherwise you will fall into frustration.

It is important for you to develop your sense of responsibility and that you examine your life more objectively. The obstacles that you will encounter are due to your own negligence and disorder. During this time you will find some oppositions or lack of support, especially from those who occupy a position of authority or represent a paternal figure in your life.

Sun quincunx Uranus:

You will be very nervous and impatient during this year. You will get tired of your daily routine which could cause you to make quick and erroneous decisions. Moderate your impulses and act intelligently. Your spirit will need more freedom of action and you may become short and abrupt with people who interfere. You should try to direct your energies consciously, because reacting explosively will only complicate matters.

You also could be prone to accidents involving speed or electricity. Drive carefully. It will be very difficult to remain calm and tranquil during this year.
Chapter 3: The emotional world.

Solar Return Moon in Capricorn :

Your emotional world will be more reserved, silent and intimate. You won't demonstrate your feelings during this time and probably will turn more mental and analytic toward your feelings. If by nature you are an affectionate person, moderation in your approach to others will be apparent. If you are not very demonstrative, you will give the appearance of emotional indifference. Try not to let this happen and work on demonstrating more openly what you feel. Sometimes your external message won't be as clear to others as it will seem to you.

This influence generates a strong desire for solitude and retirement from the social world, which in a reasonable measure could be beneficial for you, but on the other hand will not be. You could have moments of melancholy, sadness and certain depression. You should learn to discard your negative thoughts or eliminate that which in your panorama seems like a dark and difficult future. On the positive side, this influence will allow you to analyze with clarity your own reality and to make concrete decisions, without feeding false expectations for the future. You will turn very realistic and logical, which could lead to being disappointed or to cool your ambitions. If you don't let this occur, you will have a year of much success because you will know how to direct your energies with precision. If you are devoted to politics, it would be a very favorable year. Because of your honest and constant work you could have a rise in your professional position.

The relationship with your mother and with other women could turn distant to a degree. Once more, try to show your affections more openly. Listen to and accept the suggestions of others, especially if they refer to your need of dedication and expansion. You could be too busy or concerned about your material world.

Don't neglect your nutritional diet; help the process of your digestion by eating foods that are not very processed, seasoned, fried or with a lot of grease.

Solar Return Moon in 4th house:

You could have a change of residence during this year, or you may undertake some other changes and reformations in your present home. Your attention will be on family matters and the relationship with your mother, or other women who exercise some authority on you. You could become dependent and it will be difficult to cut your family ties. On one hand you will receive support and approval of your ideas, but it also is possible that you will encounter demands or limitations to your own freedom.

The changes or reformations will be promoted by your emotional motivation and won't be logical or transparent. The majority of the changes probably will come about in the final months of this solar year.

Moon conjunction Uranus:

You will turn very impulsive, impatient and restless during this year. You will search for a break in your routine and will oppose everything that limits your freedom. Your emotions will be very unpredictable, fickle and changing. It will be very difficult for you to remain still in one place for any length of time. Your spirit wants changes, movement and new things. If by nature you are a nervous person, you should search for ways to relieve your anxiety, otherwise you could suffer nervous exhaustion. If you are a calm person, you will surprise others with the expression of your new ideas and your changing emotions.

On the romantic side, you will search for unusual relationships or those with special characteristics. You will be very attracted by all the forbidden or by that which seemed absurd to you before. This could produce scandal in your family and you will receive hard criticism, but this astrological aspect also gives you strength to confront

them. It seems that these oppositions make you want to continue doing even more what you feel like doing.

One of the key words for this period is "freedom". You won't support anybody and nothing can brake your impulses, and because of that you will respond in a violent and uncontrolled manner.

Due to the increased tension this year, your digestive system could suffer. It is advisable that you maintains a light diet that facilitates the digestive process; avoid meat, fatty and fried food, and keep physically active.

Moon conjunction Neptune:

You will turn hypersensitive and your emotional world will easily assimilate the energy of others. You could absorb that energy like a sponge, which sometimes won't be so favorable, because you could be loaded with problems and irrelevant tensions. Don't associate with negative or pessimistic people.

On the other hand, your imagery will increase vastly. You will spend more time in your own world and forget about your problems. This influence could produce an escapist attitude, if you are not a rational person. There also is a possibility to acquire bad habits; avoid smoking, taking alcohol or drugs. Your emotional world will be full of imagery and idealization, which could lead to deceptions upon facing reality. The pain you feel through this will cause you to want to escape and start a bad habit. Try to think more realistically and don't idealize the people you associate with too much. Under this influence you probably will be disillusioned by your friends or you may encounter a situation of deceit or emotional betrayal. You easily could end up being the victim, although it won't be as bad as it will seem you.

Your ideas and your emotions will be difficult to express with words. During this time you will develop your creative and artistic inclinations more easily, especially in the field of music and poetry. Moon trine Mercury:

Your feelings and your rational mind will be balanced; your thinking will be influenced by your emotions, but at the same time will have the ability to stay logical. Your mind will be very receptive and alert. For this reason any type of study and also the learning of languages would be very favorable. You also will listen to the problems of others with sensibility and sympathy and are willing to offer them very valuable help.

Your intellectual capacity also will manifest in the literary field where your production could be notable. If you are not devoted to professional writing, you will at least keep your correspondence up to date. Communication in general will be favored and you will speak about your feeling very fluently. This influence increases your romantic inclinations and would be a good time to tell your spouse and other loved ones in your family how you feel about them.

This astrological aspect is extremely favorable for business relationships. You could sign very lucrative contracts or gain benefit from some type of investment or commerce. It also could indicate frequent trips.

On the other hand, you could receive some information about the past of your family or about topics concerning your family. Communication with your mother or with women in general will be very positive.

Moon sextile Pluto:

Your emotions will be very intense, but at the same time very stimulating and renovating. The way you feel everything will be more profound and powerful than usual, which will lead you to search for relationships that are not superficial, but allow you to express your more intimate emotions. During this time childhood memories or traumas will emerge that will let you see with much more clarity the motive of your current reactions. You will discover your true self which will give you more trust, clarity and capability to confront your life in general.

It is important that you don't repress your emotions this year, but express them freely. It also will be important that you control obsessive and stubborn behavior. Romance and your sex-life could become very enriched. You probably will be on solid ground with your spouse, but also will be inclined to develop a dominant attitude, sometimes falling into manipulation.

You could experience some changes in your home or family life that will be very beneficial. The relationship with your mother, or other women in your life, will be very profound, intense and spirited.

This will be a year of renovation and emotional liberation. Encounters with your past and your own history will allow you to get to know yourself better, and if you don't resist these new feelings, you will have a very positive year.
