Introduction

Your animals can be your best friends in life. Just like us, they also have their unique personalities. We may not always know their exact time of birth but we can still look at the chart for the day of birth and determine an incredible amount of information. If the exact time is unavailable a Sun sign chart will be used as the basis for the chart. We can benefit by knowing where our pets' full potential might be met. And like our human friends there may also be difficult areas of their personalities, which we must learn to accept or correct. Not all dogs are suited for agility or obedience. Some will do better at guarding their masters; others might behave well in conformation. By understanding the potential of our dogs we seek ways to improve what already exists and accept things that are sometimes unchangeable or a challenge.

There are 4 basic elements that make up a chart; they are earth, water, air and fire. If Kamikazi has 4 or more planets in one of these elements he is considered to have more than average. By giving a weight or number to these planets we can determine if the chart has tendencies that would be influenced by being overweighted in that particular element. The Ascendant, Midheaven and planets on the angles are also given a number, which is included in determining the makeup of a chart.

Element Emphasis

Fire Sign Emphasis: (Score of 17,4,2,5)

Kamikazi has an abundance of fire in his chart. The true hunter, explorer and leader of the pack. A pioneering attitude, the alpha male of the group. He may even try to control you. Kamikazi needs plenty of exercise to get rid of all that excess energy he has. Since Kamikazi can be dominant and controlling it would be wise to start obedience training early. Make sure he understands you are boss. Socialize early and show a lot of respect and admiration. Kamikazi needs to feel like he is number one. The other animals will respect him, and so should you. Kamikazi would run through fire to save you and your family members. He is fearless and will stop at nothing to protect you. Kamikazi must be guarded from his own impulsive actions. Always place him on a lead so that sudden escape urges don't lead to injuries. Companion animals should be submissive. Always pay special attention to Kamikazi and groom him often. This will give him a feeling of being adored and spoiled, satisfying his need of being number one. Kamikazi needs your approval and praise for survival and will go through any challenge to receive it; even if it gets him disapproving attention, it's better than none.

Ascendant

The ascendant, or sign on the horizon at birth, changes approximately every 2 hours. To get a true picture of an animal a time of birth is very helpful. From the ascendant, not only do we learn the appearance and characteristics of an animal, we also derive a pattern for the chart itself. The ascendant is the face we show to strangers, animal and human alike. We may view Kamikazi as his Sun sign, but others will see the sign on the ascendant. The rising sign dictates how Kamikazi portrays himself to others. These characteristics are entirely different from what we see on the home front. Learn more about how others see Kamikazi.

Sagittarius Rising:

Kamikazi may be long of limb with an attractive athletic body from all the nature runs he takes. You can't keep Kamikazi out of the forest or woods. He loves the adventure he finds there. Kamikazi will not be happy stuck in an apartment all day unless adequate visual stimuli and exercise are provided. The need for adventure is strong and keeping consistent with an exercise routine is important. Daily walks are not enough, Kamikazi needs long adventures to keep him happy. Very social by nature, Kamikazi can visit nursing homes and children's hospitals, bringing joy to all. A free spirit, he will brighten everyone's day by his funny antics and numerous tricks. He could even be known for dancing. Hunting activities that bring him to wooded paths are enjoyed. Keep Kamikazi provided with a daily dose of adventure and he will never be bored.

## Sun

Sun Signs give the basic identity of an animal. This is the real side you will see once he trusts you enough to show it to you. Although not always apparent to strangers, to those he lives with, there is no question what Kamikazi is really like. The basic needs and patterns in life are strongly governed by the Sun. Where it is found in the chart will influence that area of your dog's life strongly. He will put his best paw forward in this area, being noticed by all.

### Sun in Sagittarius:

If you're not near some woods or trails it would be wise to travel there often so that Kamikazi's adventurous side can be indulged in some fun. These wild and wonderful animals live for outdoor activity and can be seen travelling long distances for hunting or to chase fowl. Free as a bird with loads of energy. Plenty of exercise is a requirement. Kamikazi goes with the flow but would prefer you take his advice when he is leading on the trail. He prefers other animals in the household to be equally adventurous. The Disney adventures probably use a Sagittarius dog as their main character. Getting into all kinds of mischievous predicaments along the way, Kamikazi usually finishes unscathed but a bit disheveled. Kamikazi is lucky enough to escape from most disasters. If you like to run trails and play in the park this is the dog for you. Hunting and sporting trials are where Kamikazi can excel. Fun to be with and always ready to go is Kamikazi's motto. Throw a ball or Frisbee and you've found a loyal friend for life.

### Sun in the 1st house:

Here is a dog with a strong and forceful nature. Yet others are strangely attracted to Kamikazi. He projects a powerful and confident nature that portrays the feeling of "Don't mess with me, I can be friends as long as you respect me and acknowledge me for who I am." Pioneering spirit evident, Kamikazi is the leader of the pack. Things always look sunny at his house. "Come home with me and I'll show you how to enjoy yourself. Indulge me and put me in the public eye for I am a vision to be recognized." Kamikazi can receive honors in conformation ring numerous times during his career.

### Sun Square Moon:

Kamikazi is an overachiever who if asked to find something would be the first to accomplish the task despite obstacles along the way. Kamikazi is satisfied knowing you are happy no matter how difficult the chore might be. No task is too difficult. Kamikazi needs a challenge and will find a task if not required to do one. Keep Kamikazi on a regular working routine where he can continually impress you with his loyalty.

#### Sun Square Jupiter:

Here is the dog that always places in events but somehow misses the top by one or two points. Always the runner up or reserve winner instead of winning dog. If there were 2 dogs entered Kamikazi would come in second. Not that Kamikazi would mind - he loves the attention, so make sure you reward him for the effort. It's not fair that you judge him negatively because of others' choices. Fate has a way of allowing Kamikazi to win in due time and he will always be a winner in your eyes.

#### Moon

The Moon tells us how dogs bond with us on an emotional level. Now, we all know dogs have emotions but they show it in different ways. The Moon demonstrates what he really loves in life. This is the treat to their humdrum day. If wanting to know what to buy for a pet look to the moon sign to determine the perfect gift.

#### Moon in Virgo:

Kamikazi can be very fussy about his food and home environment. Since he is rather regimented be sure you feed him at the same time every day; a change in routine can disturb his digestion. Kamikazi is very intelligent and will demonstrate that he can tackle difficult problems. His analytical ability seems to be near human and probably surpasses human level if you consider his intuitive ability as well. Very talented at most tasks, his main job could be caretaker of either humans or animals. Observant and keenly aware of others' whereabouts, he would be proficient at herding and keeping an ever-watchful eye out for the enemy. A lifetime companion, Kamikazi needs to feel needed and a part of the family.

#### Moon in the 9th house:

The family diplomat might be a good way of describing Kamikazi. Loves to roam the neighborhood often knowing all the children in other families. Kamikazi's frequent visits to neighbors may get him in trouble. Kamikazi understands many commands and does not require words for action. Hiking through woods and forest will bring a smile to Kamikazi's face. Often bored with routine, he needs a frequent change of paths with new stimuli to keep him entertained.

#### Moon Square Sun:

There is no obstacle too big to prevent Kamikazi from getting his way. This could present a problem if keeping him contained is required. Kamikazi could find his way out of almost anything and survive long hours without food or water to resist failure. Often overcoming difficult beginnings, he will be sure that a relapse into similar

circumstances does not occur. If escape is necessary you can be sure he will do so to prevent such a relapse. A bit stubborn and fixed when obedience classes are attempted. You may have to find a harsher approach to get Kamikazi to respond to you. He wants to please you but just doesn't know how to go about doing this without losing pride and becoming submissive. This may be a hard chore for Kamikazi and one he will only attempt after trust has developed between you.

#### Moon Opposition Jupiter:

A little extra training would be wise to start with for Kamikazi. Known for taking foolish risks, Kamikazi will need to be taught about dangers. Strangers are not always congenial and travelling the neighborhood has its own set of hazards. Keep Kamikazi streetwise and leashed when travelling for protection purposes. Never allow Kamikazi to roam free. Kamikazi's lust for adventure is too strong to contain him. Keep Kamikazi entertained with a constant array of sensory stimuli that make his daily activities more enjoyable and dampen his wanderlust. Other animal companions would be helpful.

#### Mercury

Mercury in the chart shows us a little bit about the intelligence of an animal. For every human that is a little slow and methodical in their thinking there is another who is quick and intelligent in their response. Although a dog can't write or talk to us, there is a certain communication that he shares with other animals and humans. Some are quick learners while others take a more practical approach to learning. Mercury shows you strengths or obstacles that may occur in the process.

#### Mercury in Sagittarius:

These dogs were made for travelling and your Kamikazi is no exception. With wanderlust in his heart, he yearns for the time he spends with you on the road. Whether it be in the car or on a winding trail you can't keep Kamikazi away from adventure. It seems to find him. Never sure where the next path may take him, he cherishes his time out of the house. Friends with all humans and animals, Kamikazi will be submissive if need be to keep peace in the pack. "Let's keep this fun," he seems to say to the other animals. If anyone can be an incentive to exercise Kamikazi can. He is always ready to go, picking up the leash or keys to let you know, "Let's go, I've been waiting too long and life is too short."

#### Mercury in the 12th house:

Kamikazi knows all the secrets and will outsmart everyone he thinks is trying to take advantage of him. It could just be a routine trip to the veterinarian. He will sense this, knowing well ahead of time and running for cover. He hates the idea of any kind of confinement and will eventually find a way to escape. Kamikazi can be helpful with therapy to those who are confined in nursing home or hospital.

#### Mercury Sextile Neptune:

Quite the actor, Kamikazi often fools everyone when there is a misdeed in evidence. It couldn't be Kamikazi, he is way too well behaved to do anything bad. Kamikazi makes you fall in love with him on first sight. He makes a lasting impression and is often notorious for his tricks. Known throughout the neighborhood for his ability to communicate. It may be the way Kamikazi barks or howls that gets him noticed. Kamikazi will show up just as you're talking about him or when you want a shoulder to cry on. He is your loyal servant to be used and hopefully not abused. Kamikazi will love you no matter what.

#### Mercury Conjunct Pluto:

There are no power struggles here, Kamikazi knows he is boss. He just lets you think you are. Performing and doing all things right he soon earns your respect. There is nothing Kamikazi won't do to make you believe he is number one. Following others is not an option, Kamikazi is a born leader and will expect others to follow him, including you. "Take my leash I will guide you and make you believe you are in complete control."

#### Venus

Venus specifies the object of desire in a chart. This could be another dog or a favorite toy - it could even be you or another member of the family. When Kamikazi sees this object there's no looking back. Venus placement could help you find a suitable match for Kamikazi someday. There are soul mates out there for everyone including dogs. Dogs' souls also stand the test of time. Humans are not the only ones governed by karma. Let Venus lead you and your dog to happiness in finding true love.

#### Venus in Sagittarius:

Kamikazi means business and he won't be happy until he sees you satisfied with the result. Often starting as less than the favorite in the pack, Kamikazi eventually makes it to alpha dog. A real persistence is seen with this placement. Kamikazi will pester you until he becomes your favorite. He may be so scrawny and unattractive as a pup that you have to fall in love with him. Much to your surprise Kamikazi soon changes and becomes quite attractive as he ages. Secure with his order in the pack he sits back and enjoys the reward that comes with it. Willing to work hard to gain your trust, Kamikazi will resort to any means. Life improves with age for these old souls.

#### Venus in the 1st house:

Kamikazi is not only beautiful but quite elegant and graceful in movement. If you haven't signed up for conformation ring, do so early. There isn't a judge around who can resist how Kamikazi looks especially as a pup. Not only does he look good but he has a personality to go with it. Everyone loves Kamikazi and he responds to them with equal affection.

#### Venus Trine Saturn:

If work is needed Kamikazi will get it done. Persistent in a cause, Kamikazi will dig to China if he has to for escape. He will not be denied the reward he sees at the end of

the tunnel. You might have to guide him to the right tunnel but he will be ready to do most anything for the reward. Keep Kamikazi busy with a specific task he has mastered. Even if it's just waiting at the door for your return you can be sure Kamikazi will be there waiting.

### Mars in Libra:

Kamikazi is driven to seeing that everyone gets along. If someone is pestering another animal or child in your household he will surely set them straight. He hates it when you're mad and will make up to you anyway he can. Kamikazi does better with a partner in life and if you are not always available be sure he has someone else to converse with. It doesn't have to be another dog. Cats and birds will give him the stimuli he needs, although another dog would be the perfect companion to bring out his true nature. Venus is the planet that rules here, making Kamikazi attractive to others. Conformation ring can be something he would excel at. Light on his feet he may be able to break a few records in agility as well.

### Mars in the 10th house:

### Mars Sextile Pluto:

Keep the door open despite what you might have previously said. There is a new dog underneath all that fur - you just need to reconstruct him a little and Kamikazi will soon emerge. He may surprise you some by revolting against your requests but submission is easy once a reward is offered. He may have to demonstrate that he has the last bark. Take it for what it is and let the work begin. Change is possible and much more productive.

## Jupiter

Wherever Jupiter falls in your dog's chart is where he is most likely to find good luck and abundance. Here is where the route to all adventures begins. Follow Jupiter around the chart for an idea of where you can bring Kamikazi the most enjoyment. Let him show you how to have fun and enjoy life in his own special way.

### Jupiter in Pisces:

A bit moody, Kamikazi can look like the wounded soldier. He may even fake being lame in order to get your attention. This dog can fake crying if necessary. Kamikazi will be a constant companion through thick and thin. He enjoys being as close to you as possible. Keep Kamikazi close to water and bathe him often. The water is soothing and the closeness he gets from being with you can bring an additional calming effect. A tendency to gain weight can make exercise a must. Keep Kamikazi looking fit and trim with a daily walk and swim. He is never far from your side. When you are going to be absent for long keep Kamikazi happy with a piece of your clothing so that the smell of you stays with him.

### Jupiter in the 3rd house:

Jupiter in the 3rd house guarantees that Kamikazi is the chatterbox in your family. Seen whining or howling for your attention, Kamikazi can let everyone know exactly what's on his mind. Take Kamikazi on all your errands where he gets to greet neighbor and shopkeeper alike. The bank teller and the postal worker will soon be best friends providing treats whenever Kamikazi crosses their path. He is a ball of energy and has a wealth of information, waiting to be delivered. Kamikazi has to have an outlet to let it all out - telling all along the way the wonderful news.

This could be a dead animal or someone's boot he hopes you will find attractive enough to praise and reward him for. He is not sure how to win your approval but will keep trying until you're completely his forever. Loyal and at your side, Kamikazi will show you he cares by being supportive of you. It may take him a little longer to win you over but once he does there is no turning back.

## Saturn

Saturn in your dog's chart represents the disciplinarian or authority figure. This could be you or his own canine mother. This is the person who sets the limits on obedience and how Kamikazi behaves. The rules learned here become known as Kamikazi's personal boundaries. Boundaries and limits are meant to be challenged - Kamikazi instinctively knows how far he can push you. By learning where Saturn is in Kamikazi's chart we find how to manage behavior with a disciplinarian approach he can live with.

Kamikazi's main priority is to have puppies. He can be seen working at this constantly whether it's the right time or not. Treat him as your one and only child and he is sure to reward you with good behavior. Keep it light and enjoyable. A harsh and restrictive attitude is not necessary for this light-hearted soul.

Saturn Trine Venus:

It's hard to say no to Kamikazi or reprimand him. Always ready to serve you in any way you request, Kamikazi looks at you with those beautiful big brown eyes and you forget the fact that he just got done tearing apart your new couch pillows. Kamikazi will make it his duty to visit often sometimes causing confusion as to who the real owner of Kamikazi is.

Uranus

Uranus, the planet of change and excitement, remains in a sign for approximately 7 years. For this reason it is considered one of the generational planets, affecting large groups of dogs born during the period. Uranus shows us where individualism is strongest. Genius abilities can be evident with the right training. Independence is also strongest here. Change in this area can be accomplished only by communicating on a different level of understanding, for example intuition, natural forces, habit, or other unconventional and inexplicable methods. Information is processed with lightning speed showing a higher intelligence at work.

### Uranus in Aquarius:

Kamikazi can be seen helping other animals along the way and it is not unheard of for him to bring a few home with him for a free meal. He automatically senses those in need and will try to lend a hand. This does not exclude you and your friends as well. Intuitive to others he senses when there are troubled natures that need some loving attention. Kamikazi can direct his attention to those individuals providing them with the gift of love. Through this he has accomplished more than he will ever know. Kamikazi can be quite inventive and original when it comes to getting you to try new things. He is often the first to wake you, as his restless spirit does not allow much time for sleep. His intuitive nature will know when you're ready and remind you with a gentle nudge and his leash when it's time to go. Sometimes his erratic behavior may surprise you, but this is only his response to external stimuli he has tuned in to. Is it to belong to you or does he have a greater mission? The house that Neptune is found in is where Kamikazi will sacrifice all to obtain a higher position in your eyes. Neptune takes about 14 years to complete its cycle through one sign. Many generations of dogs will have Neptune in the same sign therefore house placement will be more important, with emphasis on the activities of the house.

You may find it necessary to take him to such areas.

Neptune Sextile Mercury:

Kamikazi believes he can outsmart and out-think you all the time. Most of the time he can, but you don't want to take that risk. Although Kamikazi may be smart enough to find his way home you wouldn't want to risk losing him to a lonely stranger. Quick in response to your calls and intelligent beyond ordinary means, Kamikazi should be kept busy with chores that require him to use that intelligence. Signals can be accomplished purely on thought transference. Try to develop this early in life by repetitive trials; he will quickly learn to know exactly what you're thinking and what you want.

His forceful energy should be put to use in work that would help dissipate the excessive energy that he keeps just below the surface.

Pluto Sextile Uranus:

Magnetic and intuitive, Kamikazi can get his point across to you without difficulty, often waking you from a sound sleep to draw your attention to something that is unusual. The telepathic way that Kamikazi communicates with you is not noticed by others. He can send messages allowing you to assimilate the information on your own terms. Communication with other animals is also intensified. Although Kamikazi has many friends, he is still the boss.
